JOYSMITH AND CO.
10 YEARS AGO "PINK" MELTON
was charged with Horse Theft, but
was only Yesterday Arrested,
and Dismissed.
Fort Worth, March 22.—Years ago
Melton, said to be one of the
most men that ever lived in Texas,
who "broke" mustangs for pos-
sible and branded mavericks for
years in Parker county, was in-
dicated in the charge of stealing horses and
cattle. He came to Fort Worth and
settled in a saloon, where he was
frequently guilty by a cowboy court,
and while all the time he was
in the saloon, the criminal
was used to rehearse the facts in
his operations were found out
by all men of the plains pulled out
and he came to Fort Worth and
settled in McLennan county ever
since.
A few days ago Constable Gross
and Melton corresponded with
him and he was instructed to arrest Melton.
He did so yesterday and brought him
in today. He has been in the
county jail here this morning.
The charge against him of the fact and
he would send an officer here
to get the fugitive there at once.

ADVICE RAINING

All Around Grover About
the Seigniorage Bill.

HE IS STILL UNDECIDED.

Though the Claim is Made
He Has Written a Veto.

His Anti-Union Measure as It
Will be in the House.

Other Interests.

By Associated Press.

Washington, March 22.—The situa-
tion of the White House presents one
strong feature of novelty in the fact
that it appears to be the scene of a
bloody battle just now between the
congressmen on the one hand, and the
large majority of whom are ardent
supporters of the seigniorage bill, and the
great commercial interests of the coun-
try on the other, for twenty-nine out
of every thirty of the communications
coming from them pray for the veto
of the bill.
The congressmen have the advan-
tage of personal presence in the field,
but the other side is in evidence in
great force in the enormous number
of letters that burden the presidential
mail and of telegrams that come so
numerously as to keep the wires hot,
and the White House operator occupied
to his full capacity.
These communications by mail and
wire are coming from all parts of the
country and are not, as might be sup-
posed, altogether of Eastern origin.
For instance, today there were appeals
for a veto from Cincinnati, St. Louis,
San Francisco and Salem, Oregon.
Virginia has also joined the list, as
was made evident by protests against
the bill from the cotton factors of Nor-
folk and the transportation interests there.
A very thoughtful presentation of
objections to the bill coming from
Richmond without doubt has made
some impression on the president.
Of course it is manifestly impossible
for the president to read himself, in
detail, all of these communications, but
they are carefully examined by Mr.
Thurber, and any new point or sugges-
tion, on either side of the case, is
brought to the attention of the presi-
dent.
There are all sorts of stories about
as to the president's disposition regard-
ing the bill, and some have gone to
the length of saying that he has already
prepared a veto message. If this be
true, he has not taken the members
of the cabinet into his confidence. At
the meeting of today the subject was
discussed from all points of view, with
a distinct impression on the minds of
the members of the cabinet that the
president is still open to conviction.
It is noticeable that some of the
communications received urging a veto
concede that owing to the slow forma-
tion of popular opinion the result may
be a temporary party loss at the polls,
but they insist that in the end the
sounder conservative course they ap-
prove will surely be rewarded by popu-
lar support. This view is strongly ex-
pressed in the communications from the
South, which in cases dispute the pre-
sident's policy in making the tariff issue.
The comparatively few appeals for the
signature of the bill, as a rule, are
based on the plea that it would do no
harm, and be absolutely demanded to
secure party unity and control of the
next house of representatives.

By Associated Press.

Washington, March 22.—Some sur-
prise is manifested in administration
circles at the opposition of this al-
ready developed in the new Chinese
treaty.
The new treaty, said one who spoke
for the administration, is the result
of months of patient work,
and will be the department that suc-
ceeded in securing our government
the question of the Chinese im-
migration. For nearly ten years this
question has been a source of trouble,
and the public has surely ap-
preciated the danger to which the
country has been exposed of a total
severance of friendly relations with
China, with the probable loss of valuable
commercial relations with that country.
The correspondence which has
passed between the United States
department and the Chinese govern-
ment, however, makes this very clear,
and the Chinese have made some very
valuable concessions in the treaty,
with a deliberate violation of treaty,
and the reputation of our government
has been rather weak in meeting the
question.

Our Attitude Toward Russia.

By Associated Press.

Washington, March 22.—If there has
been any joint action of the representa-
tives of foreign powers at St. Petersburg
concerning the Russian revolution,
the United States government is not a party to the action.
Our government, throughout the
Russian revolution, has preserved an
attitude of neutrality, and it can be
stated that there will be no depar-
ture from that position now that the
revolution at St. Petersburg is in
progress. It is quite
certain that the United States govern-
ment should officially break the rule with-
out specific instructions from Wash-
ington, which it has not had.
